Getting ACF fields to show up on User section of dashboard

Job Status: **Completed** Required Hours: 5 Rate: $30/hours Total: $495 Payment Status: **Completed**

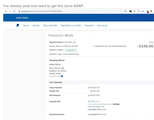
Detailed Requirements:

Hello ,

Hello , I've added custom fields (Company and Account number) to my registration form and I need the results to show up in the Users dashboard.

Please see screenshot:

I've already paid and need to get this done ASAP.



Bianca Bailey Jun 10, 2020 12:58 pm

Hello,
I have to get this done by Thursday, June 11.

Here is the login info you will need to the general site:
https://connectwebs.wpengine.com/
User: demo
Password: 13ta5436561643

I would like to schedule some time where I will be sharing my screen and you walk me through what needs to be done.

Here is my email address:
kevinbailey+@gmail.com

Bianca Bailey Jun 11, 2020 1:40 am

Hi, It will be done by today.

Shahjada Jun 12, 2020 12:38 pm

Bianca Bailey Jun 12, 2020 12:40 pm

I'm not seeing any text in your reply. It seems empty.

Shahjada Jun 12, 2020 12:41 pm

We would need to do a screenshare and I give you permission to present to U. I can't give you login access. I would need to see everything you are doing. What's a good time for you today?

Bianca Bailey Jun 12, 2020 12:41 pm

I'll not need any access. I shall send you the plugin after I'm done with instructions. But working with screensharing is not possible.

Shahjada Jun 12, 2020 12:43 pm

Bianca Bailey Jun 12, 2020 12:45 pm

Ok. What do you need me to do at this point?

Shahjada Jun 12, 2020 1:19 pm

Nothing, just notifying you, we are starting work.

Bianca Bailey Jun 13, 2020 7:53 pm

Will the custom plugin be available to me today? I really need to get this ready for launch today.

Shahjada Jun 14, 2020 2:03 am

Hi, It is ready, as I don't have access to your site. May you please send me the field names and field group name.

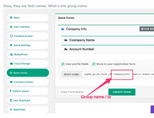
Bianca Bailey Jun 14, 2020 2:23 am

First please reference the screenshot above too. I've tried to put it below too so you know how I need it to look.

Here is the info you are asking for
Field Group Name = company info and Field Group Name = company
Field Label = account number and the Field Group Name = account_number

Shahjada Jun 14, 2020 4:20 am

Okay, they are field names. What is the group name



Shahjada Jun 14, 2020 3:09 am

Login

Bianca Bailey Jun 14, 2020 3:11 am

Here it is: https://www.dropbox.com/s/7bpzAuchxhp1k/wpdm-users-columns.zip?dl=0 Please download, then install and activate it like any other plugin.

Shahjada Jun 14, 2020 4:20 am

Thank you. We are getting closer. Both column headers (Company and Account Number) appear. When I went through the registration process, in the User dashboard ... the Company field's result doesn't appear in the User dashboard, but the Account Number's results does. How can we get the Company field's results to show up?

Bianca Bailey Jun 14, 2020 1:40 pm

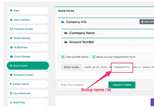
If you are not seeing the values, means, the field and group names you gave are not correct, please send me frontend user signup url.

Shahjada Jun 14, 2020 2:35 pm

https://connectwebs.wpengine.com/account/registration/ - this is where the registration form is found

You'll need this login info to see it
User: demo
Password: 13ta5436561643

For the Company field ... based on the screenshot above ... you spelled Company wrong ... you put two "cc"... that could be the issue ...



Bianca Bailey Jun 14, 2020 2:40 pm

https://connectwebs.wpengine.com/account/registration/ - this is where the registration form is found

Bianca Bailey Jun 14, 2020 2:49 pm

Asking for HTTP auth: https://share.getcloudapp.com/3qrQKrYl

Shahjada Jun 14, 2020 3:05 pm

I can give you authorization to the backend of my website, so please make sure you spelled the word "Company" correct and then reseed the custom plugin. Or you can remove "Company" all together and just leave "Account Number" ... then reseed updated custom plugin.

Bianca Bailey Jun 14, 2020 3:07 pm

Okay, here it is https://www.dropbox.com/s/7bpzAuchxhp1k/wpdm-users-columns.zip?dl=0

Shahjada Jun 14, 2020 3:54 pm

Thank you. Once my client is able to test the form successfully ... I'll then close this request.

Bianca Bailey Jun 14, 2020 5:36 pm

You know how if I try to log into a Wordpress site without first creating a username and password ... it's say the username or password isn't valid? How can I get my registration form's "account number" field to do that? I have a series of account numbers that I need to match the exact numbers that a visitor may input against before allowing someone to submit their registration form. Can you help with this?

Bianca Bailey Jun 14, 2020 5:58 pm

That is complex and will require additional customization. Will take around 4 more hours.

Shahjada Jun 14, 2020 11:58 pm

Would you be creating a custom plugin again or using SQL?

Bianca Bailey Jun 15, 2020 12:42 am

Can you do for $300? I need it done by tomorrow.

Bianca Bailey Jun 15, 2020 12:44 am

Okay, go on https://www.paypal.me/w3eden/300 But, please allow 2 days atleast.

Shahjada Jun 15, 2020 6:33 am

I shall extend the current plugin I sent you, no a new plugin.

Shahjada Jun 15, 2020 6:34 am

Hello,
I'm about to pay the $300 via the link you sent for you to carry out the following by July 1.
"You know how if I try to log into a Wordpress site without first creating a username and password ... it's say the username or password isn't valid? How can I get my registration form's "account number" field to do that? I have a series of account numbers that I need to match the exact numbers that a visitor may input against before allowing someone to submit their registration form. Can you help with this?

Here is the list of account numbers we are starting with. I would need the ability to update these account numbers on my own as I add more. Also, I would need the ability to add a new account number to the list as I create it. I can do it https://view.jungla.com/tool/aFeJBUdNnHSaMkuJEzTKSTQzmuGV/view?sub=preview

Bianca Bailey Jun 28, 2020 7:08 pm

Just post this $300

Bianca Bailey Jun 28, 2020 10:52 pm

Thanks,

Shahjada Jun 29, 2020 3:09 pm

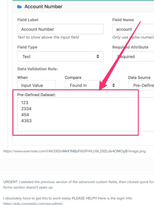
Hello , just checking on this ... any updates? I really need to test this week.

Bianca Bailey Jul 2, 2020 9:18 am

Hi, It will be done by tomorrow :)

Shahjada Jul 3, 2020 9:21 am

Done: https://www.dropbox.com/s/7ohgtcvq0xaeina/wpdm-advanced-custom-fields.zip?dl=0 Please deactivate and delete currently installed advanced access field add-on, download the one attached above, install and activate. You can add your validation dataset here.



https://www.evernote.com/l/AI2XE5vMkKFNBpf9GPVhLU9LZSDJeuKOMQyB/image.png

Shahjada Jul 3, 2020 6:19 pm

URGENT: I deleted the previous version of the advanced custom fields, then clicked quick forms in the settings and the quick forms section doesn't open up.

I absolutely have to get this to work today PLEASE HELP!!! Here is the login info:
https://connectwebs.com/
username : bbailey
password : 1fnlosleepinjune.pk

Bianca Bailey Jul 10, 2020 11:28 am

I had to revert the site back to before I uploaded your recent ACF custom plugin.

Bianca Bailey Jul 10, 2020 8:51 pm

Updated and okay now.

Shahjada Jul 10, 2020 8:53 pm

Thank you!!! It works. great!!!!

Bianca Bailey Jul 11, 2020 1:08 am

URGENT Hello, . For some reason when someone completes this form here and don't put in an account number, it still lets them submit the form even though I have the "Account Number" field set to required. I also have it set to only take some numbers in the field as well to validate and it accepted them without validating.
https://wlu.connectwebs.com/account/registration/

I went in and updated the ACF plugin on page 4 to 5 I set it to out of date and when I refreshed, it removed the Data Validation Rule settings that were there in found in Download Manager Settings > Quick Forms under Account Number ... here is the screenshot you all previous took showing me where to put in the account numbers that the field would need to validate: https://www.evernote.com/l/AI2XE5vMkKFNBpf9GPVhLU9LZSDJeuKOMQyB/image.png

I need this form to start working again ASAP, so https://wlu.connectwebs.com/wp-admin/
username : bbailey
password : thisisatemporarypw

Bianca Bailey Feb 4, 2021 7:23 pm

Please send me admin login info to check, the login info you sent is not allowing me to access https://wlu.connectwebs.com/wp-admin/
